

Layout space requirements

Contact info@abbeylightrailway.co.uk
for any further information.

Download the trackplan alone for layout guides
from www.abbeylightrailway.co.uk

- Venue must be indoor and secure, with the layout fully covered by the event insurance while in attendance and in transit to/from the show.
- A solid, flat and level floor is essential.
- Layout is self-illuminated.
- Layout is freestanding with fire retardant curtain along the front of the support legs.
- Barriers in front of the layout are not required.
- A table behind the layout would be appreciated but is not essential. No chairs are required.
- Layout viewing height (floor to railhead) = 1030mm / 3' 5" (viewable by children and wheelchair users)
- Overall height requirement = 2m / 6' 6" (due to tall operators!)
